Boxes of high quality and low weight. Extra strong corners with makes it easy to stack safely during transport. Material thickness 1,0 mm. The boxes have strong stainless steel locks and full-length piano hinges, strong spring handles and a rubber gasket which makes them water-resistant. The boxes come with extra silicon sealing in joints to meet the IP 54 standard.

The boxes are available in different sizes, fitting in series and adjusted to Euro-pallets *ground measurement* (80 x 120 cm.), except T10, T19, S23, S56, S67, S115, A134 and S175. See "Pallet size".

The above mentioned boxes and pallets are standard sizes and stock items.

We also produce boxes to suite your specific needs and measurements; even for small quantities. All boxes can be made with inner foam.

We have trolleys, roller frames and wheels available for almost all models.
